“I believe that we all have the capacity to reach our dreams. Let’s sit up and live. Let’s heal ourselves from within rather than look to others to give us a cure. This journey is one of personal empowerment, not faddy diets, expensive treatments and see-saws. Be your own guide to transformation.”

## ABOUT SUZY

Suzy has always had a passion for healthy eating and holistic living; researching and reading avidly in this area. Her interest and purpose has always been to understand what is best for the body and how to apply this. Healing on a nutritional and physical level

also led her to healing on an emotional and spiritual level, and her practise and daily life now incorporate many elements to aid this journey. Suzy does not only teach from study courses and theory, but works hard to live and breathe her beliefs. She has a degree in Psychology, a choice that was fuelled by a desire to learn about what makes us tick. This study was continued on her course with the International Macrobiotic School, where she begun delving into holistic

counselling, and emotional patterns linked with the five elements. From this work Suzy has built her own practise offering Macrobiotic consultations to assist in diet, emotional well-being and lifestyle. Her recently written book 'Conscious Cookery' is now published and available to purchase.

She is also a mother of 3, Yoga teacher, Shamanic practitioner, Reiki Master, healing massage and crystals practitioner, and is currently undertaking the All Nations sweat lodge training. With an eclectic mix of healing practices Suzy feels her life has become richer and fuller, with more understanding and happiness; and less health and emotional turbulence. She is now dedicated to continuing this journey for herself, and her family, and to also share this with the guests coming to stay at Sunny Brow.

### HORSE MEDITATION

Cost: 2 hours | £95 per session for up to 4 people or £35pp for 5 or more.

Horses are great barometers for our meditation practice. If we are peaceful, they are peaceful. If we are fearful, they too are fearful, and so on. Horses are herd animals and can mimic each others heart rates in order to protect the herd from prey. This is how they know when we are anxious etc. They basically sync with our central nervous system.

They mirror our emotions so when we relax, they fall asleep, they become very still and affectionate and chose to be close to us. Its beautiful to be among horses in this state.

Horses survive through relationships; they live for the herd. They really want to connect with us but do have no opinion on what we look like or any

other mental agenda. This is why horse therapy is especially good for teenagers and children with anxiety, for trauma victims, anyone longing for that gentle authenticity

### SACRED LODGE EXPERIENCES

The Sweat Lodge Ceremony is created to aid mental, physical and spiritual healing; a place to get answers, guidance wisdom and power. It has Native American and Celtic roots and is a very ancient ceremony for purification and prayer. At Sunny Brow Farm we invite various facilitators of the Lodge ceremony to create the modern day version of this experience here.

A sweat lodge is a dome structure; at Sunny Brow we use our coppiced hazel. The ceremony involves lighting a sacred fire, covering the dome in blankets, heating up sacred rocks in the fire, and ceremoniously placing them in the lodge to aid a 'sweating' experience. They are deeply profound experiences and can be an exciting part of a 'healing' journey.

Please email us if you would like to be informed of the dates and details of our next Lodge retreats. It's also possible for us to provide this experience for a group so please email us for more information.

## SUNNY BROW CUISINE
